GOSSIP ON STOCKS

Street Talk of a Decidedly Bearish

Complexion, but Some

SURPRISES MAY BE FLASHED UP.

Why Philadelphia Gas and Electric Are Still

Deeply in the Dumps.

THE TRACTIONS ALSO UNDER A CLOUD

To-day business will be resumed at the

Pittsburg Exchange after the longest vaca-

tion in its history. There was very little

stock gossip on the street yesterday, but what there was had a decidedly bearish flavor. The strongest stock spoken of was Wheeling Gas. Its strength was attributed

to the prospective declaration of a dividend at the meeting of the company next Tuesday.

Philadelphia Gas was in the dumps, being ractionally weaker and neglected. While

nobody seems to be able to give a diagnosis of the disease with which this stock is troubled,

all admit that there is something wrong. The persistency with which it hangs around 40 is attributed by some to the manipulations of a built clique who want it at a lower figure. Others maintain that it has reached its top

price, and is tottering on the apex before tak

ing a plunge downward. So far as known there has been no recent change in the condition of the com-

pany to affect prices either way, unless it be the proposed Bellevernon extension, and to

naintain that this indicates a falling off in the

present sources of supply would be unwar-ranted from all that is known. When the brokers come together to-day they may be able

represents an interest that has limitless possibilities. Every day, almost, opens up new uses for electricity, and every such invention or discovery should increase the value of the stock. Once divested of its legal complications and the plant put on a solid basis, the stock must advance to a much higher point than it has yet reached.

In regard to the Tractions, the talk was not

fort of passengers, these objections may soon be overcome. That the business of the roads

will grow as the districts through which they pass become more thickly settled is patent to

be manipulated by a clique who are not press ing its sale. By holding it back they expect to

Julia Mary came to his office eight years ago

A PARALYZED OKPHAN'S LEGAL PLEA

The very nice, quite important and

equally puzzling question now arises. Is

Mary Mitchell, alias Sheehan, who is now in

court, claiming to be the only child of Thomas

Sheehan's second marriage the real heiress

to that \$60,000 or \$80,000 estate which

Thomas left? The evidence for and against

her claim, before Judge Hawkins, in the

Orphans' Court, assumed this very interesting phase yesterday: The identification by

birthmark, the much-testified resemblance

to Thomas Sheehan, the father, and the

young lady's own statement that she is the seiress, the long-lost Julia, are all con-

fronted by the testimony of the witness

who was next to the last one swora yester-

The run of cattle was not quite up to last

The run of cattle was not quite up to last week, but too large for demands of trade. The total has been about \$2\$ loads against \$5\$ last week. There were in the supplies about 10 loads of stockers. The bulk of receipts were from Chicago. Markets were in favor of buyers on all grades, and prices were 16 to 15c off from rates of last week. A number of loads were unsold to-day. The quality of cattle received this week was fair, but primes were few. None could be traced much above 1.400 in weight. Calves continue to be in bountiful supply. The best prices obtained for 1.400-pound steers was \$4 25 to \$45 a. The range for calves was \$3\forall to \$15\$ in the latter price being obtained for a few extra fine.

Our little girl when but three weeks old broke outwith eczema. We tried the prescription from several good dectors, but without any special benefit. We tried S. S. S., and by the time one bottle was gone, her head began to heal, and by the time she had taken six bottles she was completely cured. Now she has a full and heavy head of hair—a robust, healthy child. I feel it but my duty to make this statement. H. T. SHOBE, Rich Hill, Mo.

NOT TOO LATE.

Miss Drayer, aged sixteen years, daughter of Mr. Wm. H. Drayer, a well known shoe dealer, had been afflicted with Club Foot fourteen years, causing great distress and annoyance to herself and family. There was such a contraction of the muscles that she could not straighten her limb, and although she wore the usual high heel shoe, it was impossible for her to bring her heel to the ground when walking. After suffering on in this condition for fourteen years, she consulted one of the surgeons of the Polypathic Surgical Institute, and was convinced that it was NOT TOO LATE to be cured. An operation was performed, and the deformity entirely removed, and although it is now three years since the operation, her cure has remained permanent. She walks perfectly, and has no further use for a high heel shoe. Her father says: "For the benefit of others I hereby certify that the foregoing statement concerning my daughter's condition is true and correct. WM. H. DRAYER." They treat suc.

HE IS NOT AN ANARCHIST.

The Man Who Waved the Red Fing at Chicago Makes an Explanation. CHICAGO, May 1 .- M. W. Doty, the mar who was so roughly handled by a mob yes terday because he swung out a piece of Anarchistic red material from his window,

gives a different version of the affair from that published. He says he is not an Anarchist; that, on the contrary, he is an American citizen and a patriotic one. See-American citizen and a patriotic one. Seeing that his neighbors were decorating, he got out a red umbrella which did duty last tall in Harrison and Morton parades, and, without a thought it was the chosen color of the Anarchistic clans, swung it from his window as a piece of patriotic decoration.

When the crowd gathered and began to abuse him and call him an Anarchist he "got his dander up" and refused to take the obnoxious color in. That was how it came about that, when he coolly marched down into the angry crowd for the purpose of ex-To cure Mrs. Thomas Hatton, and she suffered on for 18 years. The aches and pains which she experienced in almost every part of her body was simply terrible. Those sharp, cutting pains across the small of her back and lower part of her body was almost unbearable. In fact she suffered with all those diseases and conditions peculiar to women. For three months her mind was unbalanced, and for months she was confined to her bed. She became very weak and emaciated, so that she only weighed 98 pounds. No one expected her to live, much less get entirely cured. After receiving three months' treatment with the

very encouraging. The increase of the indebt-edness of the Central was looked upon in some quarters as the beginning of the watering pro-cess which has ruined many otherwise valuable stocks. Other causes of depression were irregularity in the running of the cars and frequent accidents, making the companies liable to heavy damages. pointed. The season is too far advanced for that, Improvement will be slow, as it has been. But there is more doing than surface indications would lead the casual observer to suspect. Nearly all the mills and factories are in operation, most of them working on orders and very few accumulating stock. Sales of drygoods, groceries, boots and shoes and other leading articles of merchandise are larger than last year. There is very little unemployed labor. All this denotes a healthy condition of trade, with no danger of a reverse. All who try are making a good living, and many are laying up money. We have no good reason to complain.
